

Declics

Dialogues **E**ntre **C**hercheurs et **L**ycéens pour les
Intéresser à la **C**onstruction des **S**avoirs

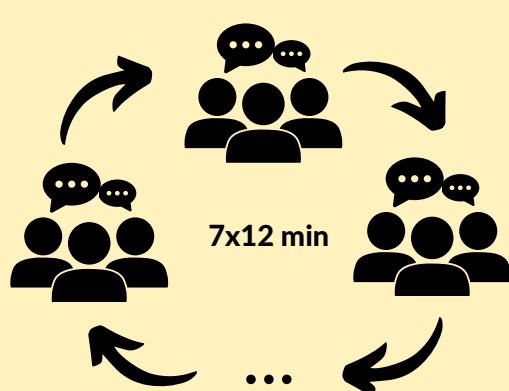

*Declics: a team of researchers will exchange with highschool students
in class or by videoconference with eDeclics**

Conference
30 min

A Declics **Captain** (PI) or an
Ambassador presents his/her
science career and how
research is done in his/her lab

Speed-meeting
1h30

In groups of 5, highschool
students exchange directly
with **7 Ambassadors**
(research workforce)

Coffee
45 min

Teachers chat with Captain
and Ambassadors

**You! All the jobs related to fundamental
research, of all levels of experience can
participate!**

The first meetings start on November 18, sign up now !!

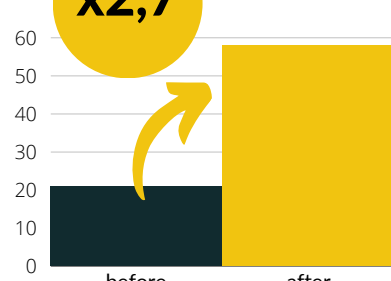

Declics: a new discovery for highschool students

before Declics

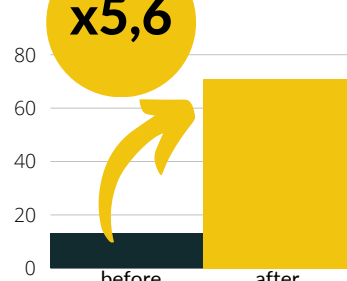

2 students out of 3 had
never met a researcher

x2,7

Proportion of students
declaring knowing
research jobs

x5,6

Proportion of students declaring
that they know how scientific
facts came to be

*They showed me a new side of scientific research and this is breaking all
stereotypes and prejudices that we had over scientists*

Student

Declics : it motivates scientists

97%

Researchers
fulfillment rate
after participating

99%

of the participants will
recommend it to their
colleagues

92%

of the participants think
that participating didn't
take much of their time

77%

of scientists declare that, after
Declics, they feel they
communicate better

50%

Proportion of scientists
participating who are not
familiar with science outreach

x3,8

less scientists declaring that
they don't want to
participate in outreach

*Students are very interested, they ask very interesting questions
and that is delightful!*

Researcher

*eDeclics : the remote version with the same efficiency

x7,6

Students declaring
knowing what basic
research is

x6,1

Students declaring
knowing how scientific
facts came to be

81%

Students who enjoyed
the discussion with
scientists

74km

How far the nearest
research center is
to these students

*I really liked this meeting, I learned a lot of things about the
world of research, and these videoconference meetings were
very well organised.*

Student

As an Ambassador, to what am I committed?

✦ To come to a highschool for half a day (for eDeclics: free half a day to participate to the remote speed-meeting)

✦ Chat with students and teachers about the different aspects of being a research

No need to prepare in advance, just register!
